## SUMMARY

Dedicated MERN stack developer with 1 year of experience in developing web and mobile applications. Seeking to leverage my expertise in Node.js, React.js, and other web technologies to contribute to the success of a dynamic team while advancing my professional growth.

---

## SKILLS

- HTML
- JavaScript
- Mongodb
- CSS
- Node.js
- GIT
- Bootstrap
- Express.js
- React.js
- Typescript

---

## WORK EXPERIENCE

**MERN Stack Developer, Pixalive Services Technologies**                    **Nov 2023 - Present**

- Developed responsive and interactive user interfaces using React.js, HTML, CSS, and Bootstrap.
- Ensured cross-browser compatibility and responsiveness across various devices.
- Designed and built high-performance APIs with Node.js, Express.js, and TypeScript for efficient server-side operations.
- Implemented secure and scalable backend solutions with MongoDB.
- Worked closely with frontend developers to integrate APIs and ensure seamless user experience.
- Utilized Git for version control and efficient team collaboration.
- Successfully improved API response times by 20% through optimized query handling and efficient data modeling.
- Contributed to a project that saw a 30% increase in user engagement through enhanced UI/UX designs.

---

## PROJECT 1 - ASTRO LOVE

**Description:**

AstroLove is a platform providing users with one-on-one Astrology consultations and daily activity tracking to help with personal growth and mental health.

**Responsibilities:**

- Designed and built web applications utilizing **Node.js**, **Express.js** and **TypeScript.**
- Implemented data models and optimized data retrieval in **MongoDB**.
- Created and maintained robust, scalable APIs using Node.js and Express.js for efficient server-side operations.
- Worked effectively with other developers using **Git** for version control, facilitating seamless collaboration and code management.

---

## PROJECT 2 - PGNEET

**Description:**

- Crack NEET PG with Live classes, practice questions, mock tests, doubt solving & much more. Previous Year Questions.

**Responsibilities:**

- Utilized React JS, HTML, CSS, JavaScript, Redux, and Jest, along with Ant Design for styled components, to create a seamless and user-friendly interface.
- Implemented various user roles, including student and admin, with distinct dashboards for each role, providing customized experiences based on user type.
- Worked closely with the team to ensure smooth integration of functionalities, seamless navigation, and a consistent user experience.
- Contributed to the ongoing development and enhancement of the app, actively participating in feature implementation and bug fixes.
